I.... INTRODUCTION

General Description of the Program

History

Areas of Responsibility

Through DOD, NAVY, and NRL.

II.... ELINT SYSTEMS

History of Growth.

Details of the Present Effort

Future Effort

Accomplishments

National, Historic and Contemporary Navy.

III.... OCEAN SURVEILLANCE

Contemporary capability

Enhanced (Dedicated) Ground station capability

Special Payload Capability.

NRL Participation

Keep In mind that Adm Moran was briefed by Capt Moffit prior to the PSAC in early December where I extended to him the invitation to visit NRL, and reminded Capt Moffit that we had set 8 and 18 Feb as the two earliest visitor days for the Program preview of the Mission 7106 payloads. Capt Moffit gives an ample organization-orientation type briefing but in 15 minutes he could not cover any of the How, When, Where of NRL's role. He did show the"Point paper"which Lt. Potts and I wrote for Adm. Harlfinger, in Nov. It is a little surprising that [redacted] are given such a place in the Sun for this visit....perhaps [redacted] must show both sides of the community efforts in space (Scientific and Intelligence).
